3.) Public Meeting – Review of Proposed Land Use Ordinance Revisions and Zoning Map Amendments

Rusty Greenleaf was present to represent Oak Grove Cemetery Association. He is proposing having a crematorium at the cemetery which would require a change to the current zoning ordinance. The last three words need to be removed. Judy Dorsey argued that really they would only need to add a definition of the word crematorium. Rusty said they would use the state definition. He said the problem is they are running out of space at Oak Grove. Crematoriums are becoming increasingly popular. About 60% of people are requesting to be cremated. Oak Grove meets State Statute as far as size qualifications. The Crematorium cannot be owned by the Cemetery Association; it must be located in a nonprofit cemetery with 20 or more acres and have had at least 5 burials in the last two years. It cannot be owned

by a funeral home, but rather a non profit holding company. Chair Hart reviewed with Rusty the fact that it would require a public hearing and then three readings before it would go into effect. It was then discussed when the City Council is meeting again. In an attempt to expedite things Chair Hart suggested to Rusty that he get either a Councilor or the Mayor to sponsor the proposal and have it brought before the Council that way.
